

## PRESS RELEASE

### New DEUTZ Power Center in Dallas

- DEUTZ to supply spare parts and services to customers in the Dallas metropolitan area
- Application engineering services and technical sales for OEMs
- Custom production and assembly solutions

Cologne, March 9, 2021 – DEUTZ is opening another service site, the DEUTZ Power Center Mid-America in the Dallas metropolitan region. Customers have access to a comprehensive range of spare parts and can have regular maintenance work and emergency repairs carried out, either at the Power Center or on-site by a mobile technician.

The new DEUTZ Power Center Mid-America also offers application engineering services and technical sales resources for OEMs that use DEUTZ products. Manufacturers can receive custom production and assembly services that produce the best possible DEUTZ solutions for their needs. The Power Center also sells new DEUTZ engines and DEUTZ Xchange remanufactured exchange engines.

Michael Wellenzohn, member of the DEUTZ Board of Management responsible for sales, marketing, and service: "Mid-America is a growth region with a booming economy, many construction and infrastructure projects, and a strong agricultural sector. Through our new DEUTZ Power Center, we can provide even more direct and better support to suppliers and end customers. This gives them the expert, first-class repair, maintenance, and parts delivery service they have come to expect from us."
